

THE RURAL MUNICIPALITY OF DAUPHIN POLICY MANUAL

SECTION: *MUNICIPAL SERVICES*
POLICY: *SPRING DRAIN CLEANOUT POLICY*

This policy will govern Spring Drain Cleanout to allow water to run freely through culverts at spring thaw.

The Public Works Foreman and Assistant Foreman will determine trouble spots and the municipal equipment will be dispatched to clear culverts. Priority will be given to problematic yard sites. Once the yard sites are done, if there is time and a defined need, further ditch clearing will be considered.
